

FreeHAND

Alcohol-Free Hygienic Hand Cleansing Cream for Use Without Water

Germs remain active on hard surfaces for hours, and sometimes even days. These germs are passed on from one person to another when we handle everyday things like telephones, computer keyboards and mice, door handles, hand rails, money, etc. Experts acknowledge that approximately 80% of all common infections are spread by the hands this way.

Opus FREE-HAND has been developed to meet the requirements of schools, prisons and religious creeds that prefer to make use of an alcohol-free hygienic hand cleansing solution without the use of water.

Opus FREE-HAND is completely effective, while affording quick-acting and nontainting properties. It is food-safe, combining a high level of bactericide. The active ingredient is non-toxic (same as is used in oral applications) and is effective on the hands for longer than alcohol-based products.

Excellent emolliency - FREE-HAND keeps the hands moisturised and protected from many contaminants. It does not dry out the skin and leaves no after-odour.

These advanced properties make Opus FREE-HAND equally suitable for many medical and care service applications - in fact, any application where there is a risk of cross-infection from hand contact, but especially where use of an alcohol-based hand sanitizer is perceived as an issue.

Independently tested and certified to comply with following EU Approvals:
 BSEN 13704 - C-Difficile
 BSEN 13727 - MRSA
 BSEN 1276 - Salmonella Typhimurium, Listeria
 BSEN 1276 - Pseudomonas Aeruginosa, Escherichia Coli, Staphylococcus Aureus, Enterococcus Hirae

Apply a small quantity to clean, dry hands and rub well in, paying particular attention to fingernails and creases in the skin. Within 15 to 20 seconds, FREE-HAND will have evaporated, leaving the skin soft and dry.

MSDS: An EC safety data sheet (MSDS) providing additional information is available on request.

Packaging Sizes:

- 24 x 80 ml flip-top bottles
- 12 x 250 ml pump bottles
- 10 x 500 ml pump bottles
- 6 x 1 litre pump bottles
